UVOD

Začnimo kar s številkami, ki zgovorno osvetlijo kadrovsko moč Inštituta za matematiko, fiziko in mehaniko. Konec preteklega leta je bilo pri nas zaposlenih 145 sodelavcev. Po izobrazbi je med njimi 128 doktorjev znanosti, en magister znanosti, 13 magistrov ter trije z univerzitetno izobrazbo. Redno zaposlenih sodelavcev je bilo 28, dopolnilno pa 117. Njihovo število se glede na preteklo leto ni opazno spremenilo.

O številnih objavah naših sodelavcev v uglednih revijah in nasploh o kakovostnem ter odmevnem raziskovalnem delu govorijo strani poročila, kjer so navedeni prispevki po posameznih oddelkih. Tudi v preteklem letu se lahko pohvalimo s kar nekaj nagradami za dolgoletno odmevno raziskovalno delo. Posebej velja spomniti na naslednje. Akademik prof. dr. Josip Globevnik je prejel Zoisovo nagrado za življenjsko delo. Prof. dr. Boštjan Brešar je prejel Zoisovo priznanje za pomembne dosežke na področju teorije grafov. Ameriško matematično združenje (American Mathematical Society - AMS) je prof. dr. Bojana Moharja uvrstilo med Fellows of the AMS (2020 Class). Prof. dr. Dušan Repovš je prejel "Zlato plaketo" Univerze v Ljubljani in bil v okviru projekta promocije znanosti, ki ga izvaja ARRS, izbran med "Odlične v znanosti 2018".

In zdaj k podrobnostim o raziskovalni organiziraniosti IMFM. Na inštitutu imamo osem programskih skupin – šest s področja matematike, eno s področja teoretičnega računalništva in eno s področja fizike. Vodje programskih skupin na Oddelku za matematiko so: prof. dr. Matej Brešar, prof. dr. Franc Forstnerič, prof. dr. Sandi Klavžar, prof. dr. Dragan Marušič, prof. dr. Primož Moravec in prof. dr. Dušan Repovš. Programska skupina na Oddelku za teoretično računalništvo vodi prof. dr. Primož Potočnik, na Oddelku za fiziko pa prof. dr. Zvonko Jagličić. Na Oddelku za fiziko deluje tudi infrastrukturna skupina, ki jo vodi doc. dr. Vojko Jazbinšek.

V preteklem letu se je zaključilo 5-letno obdobje izvajanja programske skupine na Oddelku za teoretično računalništvo. Programska skupina z naslovom "Računsko intenzivne metode v teoretičnem računalništvu, diskretni matematiki, kombinatorični optimizaciji ter numerični analizi in algebri z uporabo v naravoslovju in družboslovju" je vodil prof. dr. Primož Potočnik.

Zaključil se je tudi en projekt, ki ga je sofinancirala ARRS, in sicer na Oddelku za matematiko. Projekt z naslovom "Visoko zmogljiv reševalec za binarne kvadratične probleme" je vodil prof. dr. Janez Povh.

Lani so začeli teči štirje projekti, ki jih sofinancira ARRS, od tega trije na Oddelku za matematiko in en na Oddelku za teoretično računalništvo. Novi projekti na Oddelku za matematiko so: projekt z naslovom "Sodobni in novi metrični koncepti v teoriji grafov", vodja projekta je prof. dr. Sandi Klavžar, projekt z naslovom "Turanova števila in ekstremalni problemi za poti", vodja projekta je prav tako prof. dr. Sandi Klavžar; pri slednjem projektu IMFM nastopa kot sodelujoča organizacija, projekt pa poteka na Fakulteti za matematiko in fiziko Univerze v Ljubljani. Teči je pričel tudi projekt z naslovom " p -eliptičnost v harmonični analizi in parcialnih diferencialnih enačbah", vodja projekta je doc. dr. Oliver Dragičević; tudi pri tem projektu IMFM nastopa kot sodelujoča organizacija; projekt pa prav tako poteka na Fakulteti za matematiko in fiziko Univerze v Ljubljani.

Na Oddelku za teoretično računalništvo je nov projekt z naslovom "Weissova domneva in posplošitve", vodja projekta je prof. dr. Primož Potočnik; tudi pri tem projektu IMFM nastopa kot sodelujoča organizacija, projekt pa poteka Fakulteti za matematiko in fiziko Univerze v Ljubljani.

V skladu z Javnim pozivom za dodelitev mentorskih mest raziskovalnim programom v letu 2020 sta nova mentorja mladima raziskovalcema postala: doc. dr. Klemen Šivic (P1-0222), in sicer na podlagi sklepa ARRS o prenosu mentorskega mesta s programske skupine P1-0291 s Fakultete za matematiko in fiziko Univerze v Ljubljani na programsko skupino P1-0222 na Inštitut za matematiko, fiziko in mehaniko, ter doc. dr. Matija Pretnar (P1-0294).

S 1. oktobrom 2019 sta na našem inštitutu pričela z usposabljanjem dva nova mlada raziskovalca. Na Oddelku za matematiko Nikola Kovačević (mentor doc. dr. Klemen Šivic); usposablja se na področju "Matematika", ter na Oddelku za teoretično računalništvo Filip Koprivec (mentor doc. dr. Matija Pretnar); usposablja se na področju "Računsko intenzivne metode in aplikacije".

Konec leta 2019 se je na IMFM usposabljal devet mladih raziskovalcev – šest na Oddelku za matematiko, eden na Oddelku za fiziko in dva na Oddelku za teoretično računalništvo. Njihovo usposabljanje v pretežni meri financira ARRS.

Preteklo leto so doktorirali trije mladi raziskovalci, in sicer: dr. Riccardo Ugolini (maja) na Fakulteti za matematiko in fiziko Univerze v Ljubljani, Tim Kos (septembra) na Fakulteti za naravoslovje in matematiko Univerze v Mariboru ter Barbara Ikica (decembra) na Fakulteti za matematiko in fiziko Univerze v Ljubljani.

Uspešni smo tudi na področju mednarodnega znanstvenega sodelovanja. V

preteklem letu je bilo mednarodno sodelovanje razširjeno z osmimi novimi dvostranskimi projekti, tako da jih je skupaj teklo kar 25. Geografsko je dvostransko sodelovanje IMFM povezano s skupinami raziskovalcev iz Avstrije, Črne Gore, Kitajske, Nemčije, Rusije, Srbije, Turčije in Združenih držav Amerike.

Tudi v letu 2019 so se pod vodstvom prof. dr. Primoža Moravca vrstili Matematični kolokviji, ki jih skupaj organizirajo DMFA, Oddelek za matematiko FMF UL in IMFM.

IMFM je finančno podprt naslednje znanstvene dogodke: kot soorganizator konferenco “Maps \cap Configurations \cap Polytopes \cap Molecules \subseteq Graphs”, ki je potekala od 23. 5. 2019 do 25. 5. 2019 na Fakulteti za matematiko in fiziko Univerze v Ljubljani, kot soorganizator delavnico “The 22nd Hereditarnia Workshop on Graph Properties”, ki je potekala od 21. 6. 2019 do 22. 6. 2019 na Fakulteti za elektrotehniko, računalništvo in informatiko Univerze v Mariboru, kot glavni organizator konferenco “9th Slovenian International Conference on Graph Theory (Bled’19)”, ki je potekala od 23. 6. 2019 do 29. 6. 2019 na Bledu, konferenco “Formal Power Series and Algebraic Combinatorics (FPSAC 2019)”, ki je potekala od 01. 07. 2019 do 05. 07. 2019 v Ljubljani ter konferenco “Women of mathematics on the Mediterranean shores”, ki je potekala od 27. 9. 2019. do 28. 9. 2019 na Bledu. IMFM je bil tudi soorganizator konference “International Conference on Quasicrystals (ICO14)”, ki je potekala med 26. in 31. 5. 2019 v Kranjski Gori.

Kaj lahko za zaključek dodam na upravnem področju? Nič kaj uspešnega ne morem našteti o urejanju statusa osrednjega slovenskega matematičnega inštituta ali trajni pravni ureditvi statusa naših prostorov. Je pa v preteklem letu na MIZŠ intenzivno tekla priprava osnutka novega zakona o znanstvenoraziskovalni in inovacijski dejavnosti. Za osnutek v celoti lahko ocenim, da je postal dober. Velja pa spomniti na aprilsko različico, ki bi bila za nas pogubna, saj je ukinjala dolgoročno stabilno financiranje raziskovalne dejavnosti za institucije, ki imajo podoben status kot mi. In spet smo pri jedru težav: osrednji slovenski matematični inštitut je javni zavod, a statusa JRZ nima.

direktor IMFM

MATEMATIČNA KNJIŽNICA

Z BIBLIOGRAFSKIM ODDELKOM

V letu 2019 je v knjižnico tekoče prihajalo 107 naslovov tiskanih in elektronskih matematičnih revij, od tega smo v zameno prejeli zvezke iz 22 naslovov in kot dar 7 naslovov. Na ta način smo pridobili 278 enot.

Pri knjigah smo pridobili 187 novih naslovov (od tega 2 doktorata, 43 magisterijev in 51 zaključnih del študentov 1. stopnje Bolonjskega študija). Skupaj smo pridobili 200 knjižnih enot (57 iz nakupa, 46 kot dar, ostalo so obvezni izvodi).

Zaposlenim in študentom na Univerzi v Ljubljani smo omogočali elektronski dostop do revij, ki jih naša knjižnica naroča. V okviru konzorcijev, v katerih sodelujejo fakultete Univerze v Ljubljani z drugimi slovenskimi univerzami, pa je bil omogočen še elektronski dostop do dodatnih revij v bazah *SpringerLink*, *ScienceDirect*, *Wiley Interscience* in *Taylor & Francis*. Poleg tega je bil mogoč tudi dostop do starih člankov, predvsem ameriških znanstvenih revij, v arhivu *JSTOR*.

V sistem COBISS smo vnesli 303 zapise monografij in zbornikov, 968 bibliografskih zapisov člankov in recenzij, ter 168 zapisov izvedenih del. Poleg tega smo v tem letu iz Knjižnice za mehaniko v našo knjižnico prenesli 2300 enot gradiva. Vso literaturo, ki jo hrаниmo v knjižnici lahko najdete preko sistema COBISS+.

V letu 2019 je imela naša knjižnica približno 1.000 aktivnih članov. Obiskov v knjižnici je bilo 6.145, preko sistema COBISS+ oz. mCOBISS pa še 16.667. Za potrebe izposoje smo opravili 14.306 transakcij. Med obiskovalci knjižnice je še vedno največ študentov, predvsem tistih, ki študirajo na naši fakulteti. Preko medknjižnične izposoje smo v tem letu posredovali 25 enot.

Tudi v letu 2019 so konzorcij za nakup matematične baze podatkov *MathSciNet* (<http://www.ams.org/mathscinet/>) sestavlja tri slovenske univerze. Poleg te baze podatkov lahko za pregledovanje matematične literature člani uporabljajo tudi bazo podatkov *Zentralblatt MATH* (<http://www.zentralblatt-math.org/zmath/en/>). Podatke o citiranosti (*Web of Science*) najdejo na naslovu <http://webofknowledge.com/WOS>. Faktorje vpliva za posamezne revije lahko najdejo v COBISS+ (katalog ali drugi informacijski viri). Kot že nekaj let, smo tudi v letu 2019 v knjižnici

pripravili tudi po abecedi oz. velikosti faktorja vpliva urejeno verzijo seznama revij s faktorjem vpliva 2018 za 17 kategorij.

Knjižnico financirata Oddelek za matematiko Fakultete za matematiko in fiziko Univerze v Ljubljani ter Inštitut za matematiko, fiziko in mehaniko. Poleg tega pa del sredstev za nakup tujih znanstvenih revij prispeva tudi ARRS.

Knjižnica je odprta za študente od ponedeljka do petka od 7. do 15. ure, za vse člane IMFM in FMF pa 24 ur na dan, vse dni.

ARS MATHEMATICA CONTEMPORANEA

Mednarodna matematična revija *Ars Mathematica Contemporanea* (AMC) je v letu 2019 objavila svoj 16. in 17. letnik v štirih številkah.

Skupaj je bilo v obeh letnikih objavljenih 77 člankov. Od tega je bilo 12 člankov slovenskih avtorjev oziroma soavtorjev.

Razširjeni uredniški odbor AMC sestavlja prek 70, večinoma tujih matematikov. Revija zaenkrat še izhaja v papirnati obliki (ISSN 1855-3966). Vsi objavljeni članki so prosti dostopni tudi v elektronski obliki na svetovnem spletu: <https://amc-journal.eu/index.php/amc> (ISSN 1855-3966).

Revijo indeksirajo naslednje baze podatkov: *Mathematical Reviews*, *zb-MATH*, *COBISS*, *SCOPUS*, *Science Citation Index-Expanded*, *Web of Science*, *ISI Alerting Service*, *Current Contents/Physical, Chemical & Earth Sciences (CC/PC & ES)*, *dblp computer science bibliography (indexed cover-to-cover)*.
